Product leader driving business growth by launching cutting-edge technology platforms (Cloud Gaming, AR/VR, Robotics, and AI) and scaling high-performing product/engineering organizations. Impact includes 10x increase in customers, developer platform creating \$200M+ in revenue, and the launch of 20+ AAA games representing \$30M+ of investment.

EXPERIENCE

Intrinsic - Group Product Manager

2023-Present

- Spearheaded shift from a high-touch integration model to a scalable self-serve platform, unlocking scale needed to gain a 10x increase in customers and an increase in company valuation by 60%.
- Hire and grow a team of 4 PMs which are leading ~40+ engineers to build the end-to-end experience for creating automation with robotics including low-code, APIs, LLMs, developer environment, digital twin creation, onboarding, component catalogs and publishing, documentation, enterprise tools, and billing.
- Collaborate cross-functionally: With marketing to define and launch beta experience for 50+ industry participants and experience for multiple trade shows with 100,000s of visitors. Work with sales to define target industries and pricing strategy.
- Mature the organization by creating a transparent and performing product culture including passion for users (all PMs perform customer support), everyday use of AI, and reviews to improve decision velocity.

Meta - Lead Product Manager

2020-2023

- Scaled the Quest developer platform to 10,000s MAU that launched 100s of apps per year with a revenue of \$200M+ through strategic initiatives including segmentation/targeting platform for marketing automation, cross-platform infrastructure for XR future, [complete site redesign](#), and more.
- [Speaker at Meta Connect](#) and founding member of the Orion (AR glasses) developer platform.

Google - Product Manager

2018-2020

- Drove the launch of 20+ AAA games on Stadia representing \$10Ms of investment.
- Defined and executed Stadia's GDC presence which served ~30k industry attendees including [6 stage talks](#), two dozen demos, and launch of developer site.
